## Invitation

Dear Friends and Colleagues,

On behalf of the Organizing Committee, we cordially invite you to join us for the 7th International Symposium on Advances in Pharmaceutical Analysis (APA 2025) to be held between August 24th and 27th, 2025, in Ankara University.

APA 2025 will cover all aspects including the latest developments and advances in all areas of pharmaceutical analysis with an emphasis on clinical, food, forensic, and environmental analysis. It will offer plenary and keynote presentations on cutting-edge topics by internationally renowned leaders of the field, followed by contributed talks and poster presentations to stimulate interdisciplinary discussions as its long traditions of it. A young researcher's session will be organized to provide opportunities for and encourage Ph.D. students and postdocs to share their findings.

It has long been said that Türkiye is a bridge between Europe and Asia, and now we can expand that to all continents as we are happy to welcome premier analytical chemists and other chemistry-related scientists from all over the world to enrich our knowledge with their lectures and presentations.

In addition to the scientific program, social events are being planned. Amazing sights, tranquil places off the beaten trail, world-renowned cuisine, and a very rich cultural tradition await you.

We look forward to your participation in APA 2025 in August 2025 and to welcoming you to our capital city Ankara.
